 - Do not glue the photo to a board or put glass on photos.
 - securely attached using WIRE or STRING attached to the back to display.
 - The best way is to punch two holes in the top center of the mat and loop wire or string through the holes and tie off. OR, using HEAVY DUTY packing tape (not duct tape or masking tape because these do not hold up in heat) tape the wire or string loop leaving about an inch tab of wire or string tab free at the bottom, then fold the tabs up OVER the tape and put another piece of tape over the tabs. **From the front, the loop should not be visible AND when the loop is tugged, it should not move at all.**
6. The back of each photo MUST be labeled with the contestant's name, address, phone number, division, class, and title.

7. Members may enter **ONE** print in each class. If a picture does not fit the category, the pictures may receive an excellent rating but will not be considered for a ribbon.
8. Only pictures from the current 4-H year are eligible.
9. EACH entry must have an “original” or “before” copy attached to the Photography Score Sheet – even if no changes were made to the original. If tweaking or cropping changes have been made to a digital picture, the “original” or “before” photo should reflect the picture before the changes were made. Photos with significant changes or enhancements should be entered in Digital Enhancement Class #53.
10. Processing may be done by the member on a home computer or by a commercial source. The photo entry must be printed on photo paper, while the “original” or “before” can be printed on printer paper.
